PERSONAL SKILLS

- Communication
- Teamwork
- Problem Solving
- Quick Learner
- Adaptability

TECHNICAL SKILLS

- Python, HTML, CSS
- AWS (EC2, S3, IAM, DynamoDB)
- Tableau, Power BI
- AI, Machine Learning, Deep Learning
- Streamlit, Google Colab

LANGUAGES

- Tamil
- English
- Kannada
- Hindi

HOBBIES

- Reading Novels
- Cooking
- Fitness
- Listening to Music

ABOUT ME

Computer Science undergraduate with real-world experience in cloud deployment (AWS), data analytics (Power BI/Tableau), and AI/deep learning projects. A fast learner and strong communicator, passionate about building and deploying practical cloud and AI solutions rather than just studying them.

KEY SKILLS

Python | AWS (EC2, S3, IAM) | Machine Learning & Deep Learning | Power BI & Tableau | Cloud Deployment

EDUCATION

B.E. CSE (Cyber Security) — CGPA 8.2 / 10

2023 – Present

HSC (CBSE) — Vignesh International School — 69%

2023

SSLC (CBSE) — Maharishi Vidhya Mandir Higher Secondary School — 71%

2021

EXPERIENCE

Cloud Computing Intern — STUDIX Solutions (1 month)

- Deployed and monitored an ice cream ordering web app ("Frosty Scoops") on an AWS EC2 instance, configuring S3, IAM, and CPU-based auto-monitoring

Data Analytics Intern — NoviTech R&D (1 month)

- Built a Power BI/Tableau dashboard on the Airbnb Listings dataset (Kaggle) and trained basic ML models in Google Colab to support the analysis

AI Intern — Top-Tech Developers (1 month)

- Built and deployed an AI-powered Fruit Ripeness & Market Grading System using deep learning (CNN), served via a Streamlit web app

PROJECTS

Airbnb Listings Data Dashboard — *Python, Power BI/Tableau, Google Colab*

Interactive dashboard analyzing pricing, availability, and occupancy trends from the Kaggle Airbnb Listings dataset.

Frosty Scoops – Ice Cream Ordering Web App — *AWS EC2, HTML/CSS, IAM, S3*

Static ice cream ordering webpage deployed on an EC2 instance, with CPU monitoring and auto-triggering configured for reliability. (<https://github.com/pranavemamatha-2907/icecream.github.io.git>)

AI-Powered Fruit Ripeness & Market Grading System — *Python, Deep Learning (CNN), Streamlit*

Classifies the freshness and quality of apples, bananas, and oranges from uploaded images; deployed as a Streamlit app. (https://github.com/pranavemamatha-2907/Fruit_Grading_Project.git)

CERTIFICATIONS

- Artificial Intelligence & Machine Learning — NoviTech
- Cloud Computing — STUDIX
- Power BI — Simplilearn
- Networking Basics & Advanced Networking — CISCO / NPTEL
- Java (Intermediate) — SoloLearn
